PROFESSIONAL SUMMARY

Multi-certified Cybersecurity Analyst with hands-on experience in SOC operations, threat detection, incident response, and cloud security. Adept at Python scripting, network traffic analysis, and security automation. Known for problem-solving, technical curiosity, and applying cloud-native security solutions to solve modern security threats.

SKILLS

- Security Tools: Wireshark, Nmap, OWASP ZAP, Splunk, Kali Linux, VirtualBox
- Programming & OS: Python, Linux, Git
- SOC Operations: Log Analysis, Threat Detection, Incident Handling
- Cloud Security: Google Cloud, IAM, Risk Management
- Soft Skills: Documentation, Collaboration, Self-Learning

PROFESSIONAL EXPERIENCE

Cybersecurity Analyst Intern – Redynox | Remote | June 2025 – July 2025

- Conducted real-time network traffic analysis using Wireshark to uncover and document threat patterns.
- Exploited OWASP Top 10 vulnerabilities in WebGoat applications using OWASP ZAP, aiding security awareness.
- Prepared weekly security insight reports and led team knowledge-sharing sessions on LinkedIn.

Cybersecurity Analyst Intern – Torilo Academy | Remote | Jan 2025 – Jun 2025

- Investigated security logs across Linux/Windows environments using SIEM principles to detect threats.
- Executed incident response simulations and developed documentation for threat containment procedures.

- Automated repetitive SOC tasks using Python scripts, enhancing analyst efficiency.

PROJECTS & LABS

- Simulated real-world cloud attacks and response workflows using Google Cloud.
- Created a SOC home lab environment using Kali Linux, Windows 10, and VirtualBox.
- Developed Python scripts to detect brute force attacks via log file analysis.
- Identified and documented SQLi and XSS vulnerabilities in DVWA and WebGoat.

EDUCATION

B.Sc. in Accounting, University of Benin, Nigeria – Second Class Upper (2:1), 2021

NYSC Completed – October 2024

CERTIFICATIONS

- Google Cloud Cybersecurity Certificate – Coursera
- IBM & ISC2 Cybersecurity Specialist Certificate – Coursera
- Certified in Cybersecurity (CC) – ISC2
- Google Cybersecurity Certificate – Coursera
- Google IT Support & Automation with Python – Coursera
- Microsoft Cybersecurity Analyst – Coursera
- IBM Generative AI Fundamentals – Coursera
